I. Introducing (The Real) Prof. Kim Coin

- Using cryptographic breakthroughs of the blockchain ledger, Prof. Kim Coin (PKC) was first deployed in January 2018 as **The Official Currency of Prof. Kim**.
- Exclusivity combined with proof-of-stake (PoS) technology guarantees inherent emotional value as well as fast P2P transactions.
- From its humble beginnings on the WAVES blockchain, the OG PKC has since migrated to the Polygon Mainnet, and following a series of security breaches, **TRPKC** is now The REAL Prof. Kim Coin.
 - TRPKC deployment address: [0x526aa390316433c6b18451f9685ddc8b4a236f27](#)
- TRPKC is now actively traded on Uniswap and Sushiswap.

II. Token Allocation

- Token Allocation:
 - Each student of Prof. Kim will receive 5 TRPKC.
 - TRPKC requests must be submitted according to pre-specified instructions, provided exclusively by Prof. Kim herself.
- Bonus Structure:
 - There is no bonus structure for early “investors”, because Prof. Kim does not come at a discount.

III. Use Cases

Use TRPKC to transact with fellow students.

- Use Case #1. No longer provide uncompensated answers or explanations to fellow students. Ask for TRPKC in return.
- Use Case #2. Does someone need to borrow a pen? pencil? paper? etc? Ask for TRPKC in return.
- Use Case #3. Best / most popular students can solicit TRPKC via bidding process for spots to join their HW team.
- Use Case #4. Impress Prof. Kim by amassing lots of TRPKC.

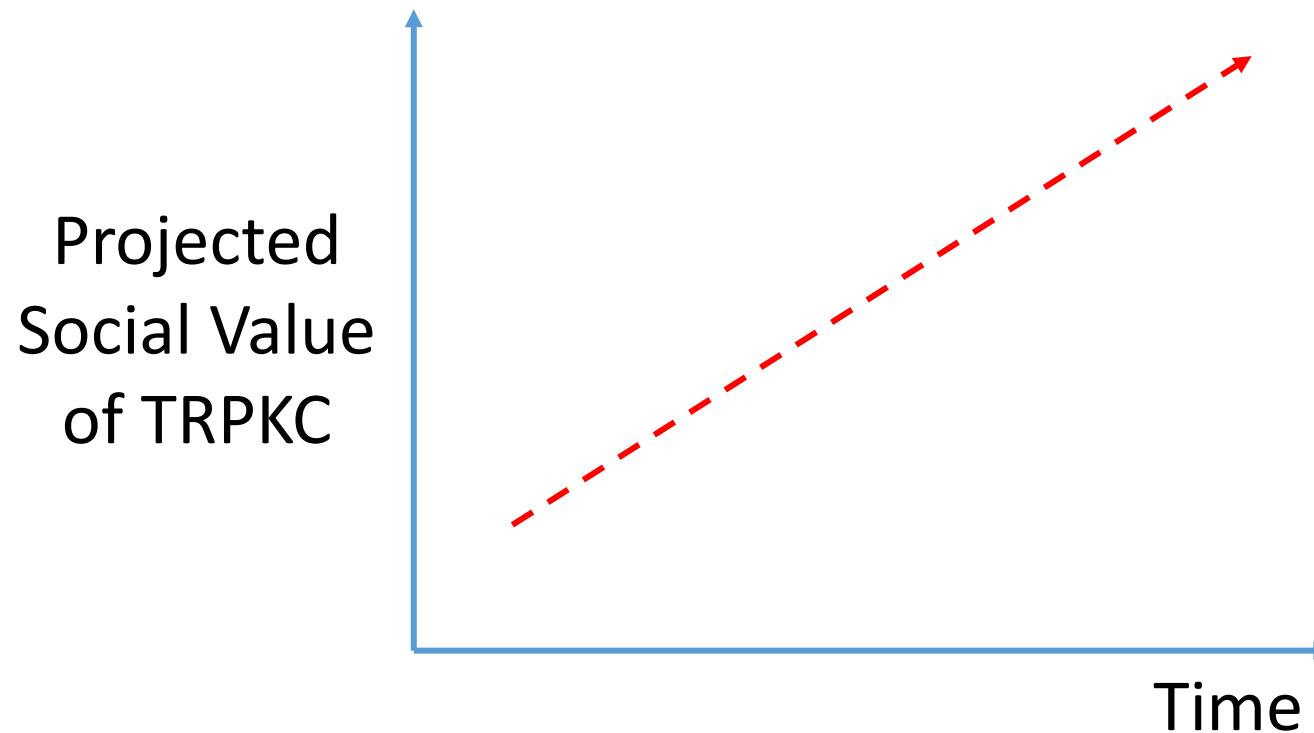

IV. Value Proposition

- As blockchain tech and Prof. Kim grow in popularity, the emotional and social value inherent in TRPKC will grow.
- Existing Market = Everyone interested in Prof. Kim's teachings
- Paraphrased quotes from former students:
 - "Prof. Kim is **the best**"
 - "Prof. Kim is **amazing**"

IV. Value Proposition

- As blockchain tech and Prof. Kim grow in popularity, the emotional and social value inherent in TRPKC will grow.

V. Roadmap

- 2018
 - ICO on WAVES ✓
- 2024
 - Migrate to EVM compatible PoS chain ✓
- 2025
 - Establish trading pools on major DEX's ✓
 - Achieve CoinMarketCap coverage ✓
 - Appoint Chief Information Security Officer ✓
- 2026
 - Establish (The Real) PuCoin🦊 as official governance token [in progress]
- 202X
 - ::currently operating in stealth mode::

VI. Leadership Team

CTO

Prof. Kim has many talents.

CFO

Naturally, Prof. Kim also wanted to serve as CFO.

Founder and CEO

After 9 years as a professor, Prof. Kim decided in 2018 to put herself on **The Blockchain**.

VI. Leadership Team Continued.

CISO

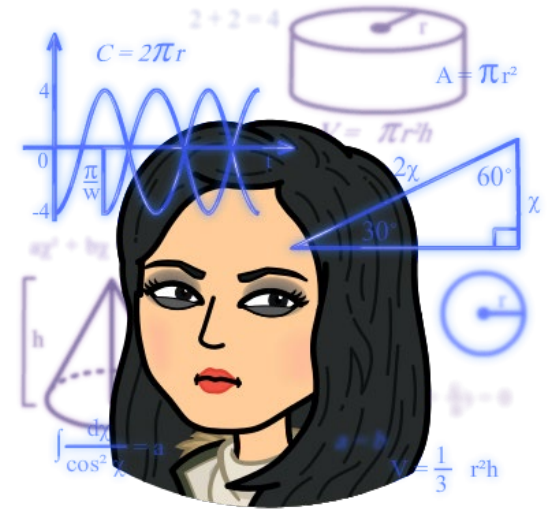

Following a major security breach in 2025 affecting the OG PKC, Apu II—also known as Prof. Pu—was appointed as Chief Information Security Officer of TRPKC, effective November 11, 2025, to restore trust and safety in the Prof. Kim brand.

VII. Contact Information

- Prof. Kim can be reached at srkim@scu.edu
- Apu II can be reached at TheRealProfPu@gmail.com

Headquartered in San Francisco, TRPKC sits at the center of Silicon Valley's world-leading technology ecosystem ♥
